***Magicians of the Gods: The Forgotten Wisdom of Earth's Lost Civilization***

by Graham Hancock (2016)

An advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12,800 and 11,600 years ago.

Survivors - known to later cultures by names such as 'the Sages', 'the Magicians', 'the Shining Ones', and 'the Mystery Teachers of Heaven' - travelled the world in their great ships doing all in their power to keep the spark of civilization burning. They settled at key locations - Göbekli Tepe in Turkey, Baalbek in the Lebanon, Giza in Egypt, ancient Sumer, Mexico, Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia. Everywhere they went these 'Magicians of the Gods' brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price. A memory and a warning to the future.

## New Material Available for Members to Borrow

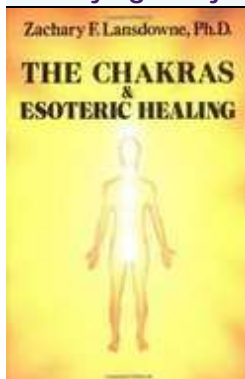

We just received a **LARGE** donation of books – about 400. Many of these are duplicates, and in very good condition. Look for a great big half-price book sale soon.

It will probably take us a month or so to get them all processed, and we will have the sale after that. We will be putting these books out on our “For Sale” cart as we go through them. For best selection, come browse the selection before the sale.

From what we’ve seen so far, it looks like there a large number of Buddhist books, and also a focus on angels. A very good collection on Masonic and secret societies. A lot of books on various parapsychology topics – candle scrying and auras are well represented.

We will be trying to rearrange our bookcases to fit more books in. We will need a lot of help to get that done in a quick and sensible way. If you would like to help us, please send a note to [volunteer@SeattleMetaphysicalLibrary.org](mailto:volunteer@SeattleMetaphysicalLibrary.org) , and include your name and phone number, as well as saying that you are interested in helping us move books.

Shankara's Crest Jewel of Discrimination

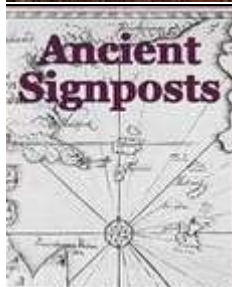

by Swami Prabhavananda and Christopher Isherwood

Shankara describes the transformation of the universe that takes place before the eyes of the illumined seer, when the world indeed becomes a paradise.

He is considered to be the leading source on the teachings of non-dualism and Vedanta.

God alone is the all-pervading reality; the individual soul is none other than the universal soul. It is the ignorance of our real nature that causes suffering and pain. The desire for happiness is essentially a longing to awaken to who and what we truly are. The path of self-knowledge awakens us from ignorance created by the mind, to abide in the peace of our true nature.

## The Knights Templar in the Golden Age of Spain: Their Hidden History on the Iberian Peninsula by Juan García Atienza

The rise and fall of the Templar Order constitutes a fundamental and decisive episode in medieval history, and the destruction of the Order constitutes a pivotal point that fundamentally altered the direction of society. While much is known about the history of the Templar Order in France, home of its chief commandery in Paris, and in the Latin States of the Middle East, their contribution to events on the Iberian peninsula has until now remained obscure and unexplored.

## The Secret Founding of America: The Real Story of Freemasons, Puritans, & the Battle for The New World by Nicholas Hagger

The Jamestown Masonic founders' beliefs indelibly shaped America. This authoritative, accessible, and absorbing history looks at the past to reveal the truth about why the United States is now run by Freemasons who are Christians, too. Drawing on original findings, and exhibiting a rich, in-depth understanding of the political and philosophical realities of the time, Hagger argues that the new nation was the Freemasons' first step towards a new world order. He charts the connections between secret societies and libertarian ideals, explains how the influence of German Illuminati worked on the framers of the new republic, and shows the hand of Freemasonry at work at every turning point in America's history—from the Civil War to the Cold War to today's global struggles for democracy.

**300,000 Years Old Nano-Spirals Found in Ural Mountains  
Still Remain an Unsolved Mystery**

The artifacts were made from copper, tungsten, and molybdenum. The objects ranged in size from the largest that was about 1 1/18 inches to the smallest which was only 1/10,000<sup>th</sup> of an inch. These curious findings bore an eerie resemblance to the control elements used in recently developed "nano-machines" all of the pieces were found at depths between 10 and 40 feet, embedded in gravel and detritus deposits. These deposits corresponded to the lower region of the Mikulinsk Horizon of the upper Pleistocene Era, suggesting that the objects themselves may be around 100,000 years old. There is no possible way such objects could be embedded so deeply without having ancient origins.
